Drop Call

Control & Monitor

Easy to hide

**PEPPER
GAS
SLAVE**

STOPS UNLAWFUL INTRUDERS STOPPING POWER WITH INSTANT RESULTS!

The CellSecure Pepper Gas system makes use of a gas discharge, which floods the environment that you want to protect with Oleoresin-Capsicum (OC) also known as PEPPER GAS.

Pepper Gas is a highly effective, non-lethal intrusion deterrent system. The OC is environmentally friendly and can be wiped or cleaned off. OC has been approved by the F.B.I. and many other law enforcement agencies. OC has also been approved by the SAPS, South African Prison Services and Metro Police Services. OC is used by major companies and banks and is tested by the SABS.

If an intrusion is detected, you will have the opportunity to deploy OC into the area being protected by simply sending an sms to your CellSecure GSM module.

Key Points:

The Effectiveness of Pepper Gas:

- Causes extreme discomfort
- Causes coughing & gagging
- Causes extreme disorientation
- Painful burning of skin
- Can cause nausea
- Shortness of Breath
- Psychological Effects: Fear, Anxiety & Panic
- Causes instant inflammation of mucous membranes
- Involuntary closing of eyes due to swelling blood vessels
